SPECIFICATIONS • STANDARD COIL SIZES

Height	Length	Weight
500 mm (20 in)	15 m (50 ft)	9.5 kg (21 lbs)
700 mm (28 in)	15 m (50 ft)	13 kg (29 lbs)
900 mm (36 in)	15 m (50 ft)	14.5 kg (32 lbs)

Flatwrap installed against an existing smooth wire mesh fence substantially improves the effectiveness of the fence. Installed on this basis, innocent persons are protected from injury by the smooth wire mesh.

Installation of Flatwrap is particularly simple when it is fitted by overlapping the fence mesh. Installed to a brick wall provides a high barrier and when it is fitted to a welded mesh fence provides a neat but effective barrier.
