### Eagle 1000 Residential Slide Gate Operator

The **Eagle 1000** Series is a specially designed high quality of Residential Sliding Gate Operators. Models available in this Series include the Fail Safe and Fail Secure, both powerful ½ HP Operators. The **Eagle 1000** provides the dependability and safety required for any Residential application. Like every Eagle Operator, this models come with all features standard, including One Pass Tailgating Prevention and Stop-Reverse. There are never any additional control boards or circuits required to activate these features. The Eagle 1000 can Handle Residential Gates up to **500 lb and 22'** long, and is warranted for 5 years. Combining smooth and quiet operation with safety and reliability makes the **Eagle 1000** perfect for all Residential Applications.

### Eagle 100 Residential Swing Gate Operator

With its power and quiet operation, the **Eagle 100** is the solution to all your Residential Swing Gate needs. This ½ HP Operator is rated for gates up to **400 lb and 16'** long at continuous cycles. A locking stainless steel door allows easy access to the Control Board, and the heavy duty polyethylene cover is weather and UV resistant - ensuring a long life of trouble free operation backed up by the Eagle 5 year warranty. Some of the standard features on the **Eagle 100** include a Non-Pinch Swing Arm, and 24 V outputs for MAG Lock. Manufactured with dedication to precision and performance with the latest in technology, the **Eagle 100** is the safest and most efficient operator for your money.

### Eagle 2000 Commercial Slide Gate Operator

The **Eagle 2000** is the premiere line of Commercial Sliding Gate Operators. The **Eagle 2000** is available in both, Fail Safe and Fail Secure Models, as well as a 1 HP model and Dual Motor. Manufactured in the USA, this series of operators is carefully crafted and quality tested to provide reliable and trouble free performance. These operators can handle gates up to **1000 lb and 45'**, and up to **2000 lb** with the 1 HP model. The high quality Eagle 2000 line is warranted for 5 years in commercial settings, and 7 years of residential use. The dependability and safety of the Eagle 2000 makes it the ideal choice for all your commercial needs.

### Eagle 200 Commercial Swing Gate Operator

The **Eagle 200** Series is a powerful line of Commercial Swing Gate Operators. Models in this series include ½ HP, Dual Motor, and Heavy Duty 1 HP. Capable of handling gates up to **1000 lb and 20'**, the **Eagle 200** Series Operators combine strength and efficiency for a long and trouble free life. These durable operators come standard with locking stainless steel door, tough polyethylene cover, and heavy duty Non-Pinch Swing Arm. With the unique Eagle Diamond Master-Slave System, two operators can communicate through only two wires, and accessories can be connected to either unit. The **Eagle 200** Series is warranted for 5 years commercial use, and 7 years residential. Perfect for all your Heavy Duty and High Traffic Applications.

**UL325 & UL991 Compliant!**
